

Instructions for abstract preparation for ENVIRA2017

A.B. First¹, C.D. Second² and J.C. Third²

¹Department of Physics, University of Somewhere, City, Region, Postcode, Country

²Department of Chemistry, University of Elsewhere, City, Region, Postcode, Country

Keywords: first, second, third, fourth.

Presenting author email: a.first@somewhere.ab

The abstract should be in double column (like this example) and ONE page long. Use A4 page set-up and make all margins (top, bottom, left, right) 20 mm wide. Start typing text about 7cm from the top of the page. Use 10 pt Times New Roman fonts (except for the title which should be in 12 pt bold and in sentence case). Centre the title, the authors' names, the addresses, and keywords and contact email address. Please compose a title that clearly and succinctly describes the content of your work, in order to maximise its impact.

Please insert max four keywords.

Use clear English to write your abstract, with an emphasis on describing what is new and why it should attract the attention of the audience.

Figures can be in colour or in black and white. Ensure that Figures and Tables have a caption and that they are numbered consecutively.

Table 1. Massic activities in Bq kg⁻¹ in IAEA-412 Sediment

Radionuclide	Certified value	Expanded uncertainty
⁴⁰ K	561	14
¹³⁷ Cs	6.50	0.28
²³⁹ Pu	0.358	0.001

References should be made in the style (Hölgve, 2008), (Carter and Moghissi, 1977) or as (Lujanienė et al., 2010). Examples of references are shown below. Leave a blank line above the list of references, and also above the acknowledgements.

Section headings can be used, but they do take up valuable space: the same can be said of equations.

Abstract review

The abstracts will be reviewed by members of the Int. Advisory Committee. Abstracts which do not fulfil the standards will be rejected. Please avoid submitting abstracts containing only future results.

Accepted abstracts will be placed on the conference website and provided to conference attendees. Abstract titles and author lists will be listed in the conference handbook.

The abstract should be submitted in **pdf format** through the ENVIRA2017 website. The deadline for abstract submission is **31 January 2017**.

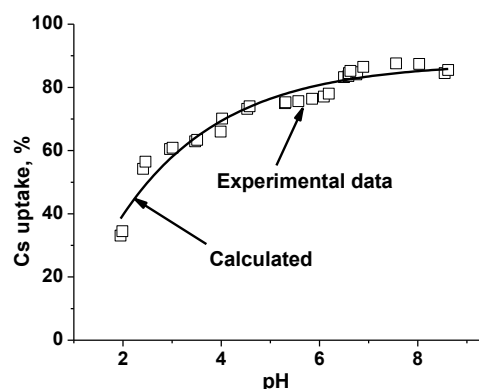

Figure 1. Cs uptake versus pH.

This work was supported by the National Council Research under grant AB/001.
